ANS

ANIMAL NUTRITION SCIENCE

ANS.Belief & Commitment.FACTSHEET

Company Belief and Quality Commitment

OUR BELIEF

We Are Dedicated To The Proposition That A Healthy Companion IS a Happy Companion.

We believe that pet dogs and cats are not just pets, they are also our beloved companions.

FAIR TRADE

AT ANS, WE BELIEVE IN FAIR TRADE TRADING. IT IS ALL ABOUT GIVING FAIR & EQUAL OPPORTUNITIES TO THE DISADVANTAGED:

- by paying producers and workers fair prices for their products,
- by helping them gain the skills and knowledge they need to develop their businesses and operate in the global economy,
- by challenging unfair trading practices.
- it is about providing fair go, not charity.

**Human
Pharmaceutical
grade ingredient**

We believe that our beloved companions deserve the same quality as us. for this reason it is important that that we use only human pharmaceutical grade ingredients. It is the quality of the raw materials that determines the overall quality of the final product.

Further more, our products are free of wheat, gluten, corn, starch, preservatives and do not contain any unnecessary filling agents.

TESTED FOR
HEAVY METALS
DIOXINS & PCBs

**Quality Process
Assurance**

Our company follows internationally accepted good manufacturing practice (GMP) Set out for the pharmaceutical industry as well as hard analysis and critical control points (HACCP), as such, we track every detail of product from start to finish - from the verification of raw materials to final testing of finished products. standard tests include those for potency, purity, disintegration, weight, hardness, thickness, and stability. for these reasons and more, you can be confident in the potency and overall quality of ANS products.

We truly make proper nutrition for animals.

- **We believe that pet dogs and cats are not just pets, they are also our beloved companions.**

ANS
ANIMAL NUTRITION SCIENCE

ANS

ANIMAL NUTRITION SCIENCE

ANS. Product Range Benefits. FACTSHEET

Unique Product Benefits

Our Company Commitment, as well as what makes our products special.

1 |  Botanical Extract

The Natural Holistic Approach:
VITAMINS. MINERALS & HERBS.

At ANS we believe that this holistic approach is best, combining herbs with the relevant vitamins and minerals to support your companion's health from within. We believe in nature and using small quantities of safe herbs that work together to produce a balanced response, without the detrimental side-effects which may result from bigger dosages of herbs or from drugs. Our products have been formulated by experienced canine nutritionists and based on decades of research relating to Chinese and western herbal practices.

2 |  Optimal Absorption Formula

Optimal Absorption Formula:
*** BREAKTHROUGH FORMULA!**

ANS extensive breakthrough researched Optimal Absorption formula addresses the issues of 'bioavailability' of nutrients to the companion. Certain forms of vitamins, minerals and herbs for example, are poorly absorbed by canine and feline due to their unique digestive tracts. ANS Optimal Absorption formula multiply the effectiveness of the phytonutrients and the other nutrient found in our supplements, thereby giving the body far greater nutritional help from the same capsules and pills. We only set 'optimum' standards to our formula, and do not set only 'minimums' and 'maximums'

3 |

Our Capsule:
PRESERVING FRESHNESS & POTENCY!

ANS' unique fish-shaped capsule was born when we saw the need to lock the individual freshness of the ingredients in capsule form so as to maintain its potency. Through encapsulation, the potency is further protected against light, air and heat as compared to having them in bulk pump bottles.

The unique shape also allows for easy snipping or twisting off (at the tail) without leaving a mess, as in the case of oval or round capsules.

EasyTwist Soft Gel

Feed with Meals

4 |

Omega 3:
*** ESSENTIAL FATTY ACID!**

is from the family of 'good' fats - polyunsaturated fatty acids that are not only beneficial for health but are essential in your companion's diet. Most importantly, Omega 3 cannot be produced by the body itself. Therefore, they must be taken up from foods or dietary supplements that are rich in Omega 3.

ANS. Product Range. FACTSHEET

Product Range

Our Range of Products includes LifeStages and LifeTherapy, Vitamin, Mineral & Herbal Supplements for your Beloved Companion.

LifeStages

The ANS LifeStages packs are carefully balanced to fulfill the needs of companion dogs at various stages of their life. From working closely with pets' owners, us folks at ANS have accumulated useful information in determining the needs of companion dogs at each life stage and subsequently have formulated different combinations that will most efficiently help a companion live a healthy and happy life.

The ANS LifeTherapy range of products are scientifically designed with Eastern and Western herbal practices in mind and uses ANS extensive breakthrough researched Optimal Absorption formula which addresses the issues of 'bioavailability' of nutrients to the companion. The different essential nutrients and natural herbs are carefully blended with essential fatty acid (omega 3) to provide effective nourishment to your companion specific health needs.

ANIMAL NUTRITION SCIENCE

ANS.LifeStages.FACTSHEET

Different life stages have their different needs.

Providing proper nourishment for your companion is one of the easiest yet most important ways you can ensure a lifetime of good health. Just as in people, the right diet can help companions to stay healthier and live longer. It can even help prevent or manage diseases.

PUPPIES

Develop

PUPPY COMPANION

up to 12 months

Everything your growing companion needs everyday.

Essential development takes place during puppyhood, including brain, eye, organs, immune system and skeletal development. This is not only affected by the puppy's environment, but also by the quality of the diet. Puppies need to be provided with a nutrient rich diet that can meet the needs of their growth and development. By maturity, most youngsters will have increased their birth weight by 40 to 50 times! Therefore, the higher levels of good protein and a variety of nutrients including correct usage of supplement provide the nutritional building blocks needed for this life stage.

Proper Brain and Nervous system
Proper Retina and visual cortex
Healthy skin, lustrous coat and strong nails
Strong skeletal development
Effective Immune function with potent antioxidant
Desirable learning ability

ADULTS

Maintain

ADULT COMPANION

Year 1-6

Everything your beloved companion needs to live long, happy & healthy.

At this stage in life, protecting against possible health complications is a positive action to take. Small changes to diet and lifestyle may help to prevent the onset of diseases such as cardiovascular disease, diabetes, cancer and some degenerative illnesses.

Our companion are omnivores, meaning that they can eat vegetables, grains, fruits as well as meat.

As their diets may not be nutritionally complete, variety is as important to them as to us. Adding essential supplement to their food is of great importance too.

Healthy Skin, Coat and Strong nails
Strong Immune system
Strong Heart and cardiovascular system
Healthy joint and reduce cartilage wear
Free of inflammation conditions of joints, kidney, gut and skin
Strong Vitality and prevent depression

SENIORS

Support Against

SENIOR COMPANION

Years 7+

Everything your beloved senior companion needs to stay in the pink of health.

All companion age differently. The degeneration of cells and organs are part of the natural ageing process, but by taking careful steps you can help to minimise the effects.

Cardiovascular disease

Age-related deterioration of eyesight

Mental deterioration

Inflammatory conditions of joints, kidney, gut and skin include conditions such as rheumatoid arthritis, psoriasis and inflammatory bowel disorders.

development and metastasis of certain cancers

Joint and cartilage degenerative disease

ANIMAL NUTRITION SCIENCE

ANS.LifeTherapy.FACTSHEET

LifeTherapy™

1 SKIN & COAT

OMEGA 3 & FLAXSEED OIL

For Healthy Skin and Shiny Coat

ANS LifeTherapy Skin & Coat Softgel's high strength optimal absorption formula is a source of concentrated Omega-3, 6 and 9 fatty acids (30% DHA & EPA) derived from deep cold sea fish and flaxseed. This specifically designed formula is essential for maintaining healthy skin, coat and nails. It also promotes healthy heart, brain, eye function and the body's natural inflammatory response. LifeTherapy Skin & Coat Softgel's high strength optimal absorption formula contains all eight essential amino acids and abundance of nutrients, including digestive enzymes, protein, vitamins and minerals that improve the organ function. It has been purified and manufactured for freshness. It passes our strict quality check for the absence of potentially harmful levels of contaminants including mercury, cadmium, lead, heavy metals, and PCBs.

2 JOINT STRENGTH

OMEGA3, GREEN TEA EXTRACT, GLUCOSAMINE, CHONDROITIN & EPO

For Joint Maintenance

ANS LifeTherapy Joint Strength is a premium optimal absorption formula that combines the full potency, clinically tested amount of Glucosamine, Chondroitin, MSM and Green Tea extract blended with quality 30% DHA & EPA fish oil and Evening Primrose Oil to maintenance of healthy joint and supports joint mobility for your companion. It also helps to reduce inflammation, swelling and stiffness of the joint.

3 IMMUNE HEALTH

OMEGA 3, Q10, PANAX GINSENG EXTRACT, LYCOPENE EXTRACT & EPO

For Normal Cellular Health & Vitality.

ANS LifeTherapy Immune Health Softgel optimal absorption formula combines Q10, Panex Ginseng and Lycopene blended with Evening Primrose Oil and 30% DHA & EPA fish oil. It is specifically designed for optimal absorption and is essential in maintaining strong immune, heart health and increasing vitality in your beloved companion. It is also filled with potent antioxidant that protects the body from free radical damage. LifeTherapy Immune Health Softgel is important for restoring vitality and bodily strength in times of fatigue, stress, debility and lowered immunity. It also supports physical and mental frame of your beloved companion.

4 EYES & VISION

OMEGA 3, WOLFBERY EXTRACT, CHRYSANTHEMUM EXTRACT, CASSIA SEED EXTRACT

For Healthy Vision.

ANS LifeTherapy Eyes & Vision is a specifically designed formula that ensures optimal absorption. This premium formula combines the full potency of Wolfberry Extract, Chrysanthemum Extract and Cassia seed Extract blended with 30% DHA & EPA deep sea fish oil to provide essential nutrients for healthy bright eyes. Lutein and zeaxanthin are vital antioxidants present in this formula that protects the macular region of the eye from free radical and reduce the risk of age-related damage to the retina and lens.
